SuperESD – SENC2X5V1BA

1. Description

The SENC2X5V1BA is designed to protect voltage sensitive components form damage or latch-up due to ESD. Excellent clamping capability, low leakage, and fast response time provide best in class protection on designs that are exposed to ESD for board level. Because of its small size and bi-directional design, it is ideal for use in cellular phones, MP3 players, and portable applications that require audio line protection.
