

## FEATURES

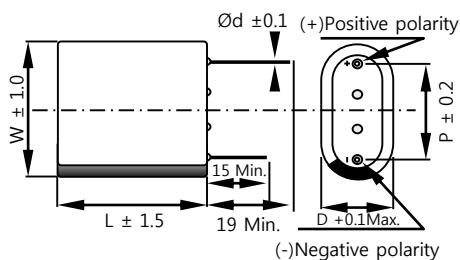

- High Power Density
- Over 500,000 cycle life (semi-permanent)
- 2 units serially connected to provide 6.0V products
- RoHS compliant
- Long-term reliability improved at high temperature and humidity

## SPECIFICATION

| ITEM                       |        | CHARACTERISTICS  |                              |
|----------------------------|--------|--|------------------------------|
| Product series             |        | EDLC 2SERIAL MODULE  |                              |
| Rated Voltage ( $V_R$ )    |        | 6.0V   |                              |
| Operating Temperature      |        | -40 ~ +65°C  |                              |
| Capacitance Tolerance      |        | -10 ~ +30%   |                              |
| High Temperature Load Life |        | After 1,000 hours at $V_R$ loaded under +65°C, capacitors meet the following criteria.   |                              |
|                            |        | Capacitance Change   | ≤ 30% of initial value       |
|                            |        | ESR  | ≤ 2 times of specified value |
| Cycle Life Characteristics | Cycle  | Over 500,000   |                              |
|                            | ΔC     | ≤ 30% of initial value   |                              |
|                            | ESR    | ≤ 2 times of specified value   |                              |
|                            | Method | Cycle of Charge/discharge from $V_R$ to $1/2V_R$   |                              |
| Shelf Life                 |        | 2 Years  |                              |
|                            |        | No Electrical Charge, Temperature below 70°C<br>( $\Delta C$ : ≤ 10% of initial value / $\Delta ESR$ : ≤ 50% of specified value) |                              |

| Part Number | Rated Voltage (V) | Capacitance (F) | ESR (mΩ) |     | Max. Current (A) | Leakage Current (mA, 72hr) | Size (mm)<br>D x Wx L |
|-------------|-------------------|-----------------|----------|-----|------------------|----------------------------|-----------------------|
|             |                   |                 | AC(1kHz) | DC  |                  |                            |                       |
| OEC6R0505QA | 6.0               | 5.0             | 95       | 155 | 8.5              | 0.030                      | 10.5x21x27            |

\* Max. Current : 1 sec. discharge to  $1/2V_R$

\* When do module more than 2 series, please fully discharge over 1 hour first, then assemble right after within 1 hour.
